SUMMARY

Motivated Junior Software Developer and a graduate of the Junior Software Developer (JSD) Bootcamp at Generation Thailand. Skilled in the MERN Stack (MongoDB, Express, React, Node.js) and responsive web design with Tailwind CSS. Transitioning from a background in the industrial sector, I bring strong discipline, adaptability, and proven experience in team collaboration and problem-solving under pressure. Eager to leverage technical skills and a hardworking mindset to contribute to a dynamic development team.

TECHNICAL SKILLS

- Frontend: HTML5, CSS3, JavaScript, React.js, Tailwind CSS
- Backend: Node.js, Express.js
- Database: MongoDB
- Tools: Git, GitHub, VS Code

EXPERIENCE

Office Syndrome Ergonomics E-Commerce Platform

Team Project | Generation Thailand Bootcamp

Oct 2025 – Jan 2026

- Developed a fullstack MERN e-commerce platform focused on ergonomic and office syndrome-relief products.
- Collaborated in an Agile team environment using Git workflow and version control practices.
- Built responsive frontend interfaces with React and implemented backend APIs using Node.js and Express.js.
- Designed and integrated MongoDB database structures for products, users, carts, and order management.
- Implemented core e-commerce features including authentication, product filtering, shopping cart, and order history.
- Deployed the application on Vercel for scalable cloud hosting.

Tech Stack:

React, Node.js, Express.js, MongoDB, Tailwind CSS, Git, Vercel
